## OUR NEW WEBSITE IS LIVE!

Our Web Design Manager, Danielle, has recently been working on refreshing our website. Danielle has worked closely with our Directors to emulate the company and add a personal touch to our online presence. As an IT and Communications company, we are aware of how important it is to stay up to date and relevant and we are excited for our clients to see our brand new look! Visit our website today <https://theunitegroup.co.uk/>.

## NORTH EAST EXPO

We are returning to the North East Business Exhibition this year and we will be representing both The Unite Group and Social+. We always look forward to large-scale networking events, such as this one, and we can't wait to see everyone in person after the pandemic. The event takes place on 4th November at the Newcastle Falcons and we are looking forward to seeing you all there!

# Keep an eye out for our free e-book!

## FLEXIBLE AND INTEGRATED WORKING WITH VOICE 365

Contact us on 0191 466 1050 or email us on [info@theunitegroup.co.uk](mailto:info@theunitegroup.co.uk)

Each month we are sending our customers a FREE e-book with detailed and easy to understand information regarding IT and Communications. At The Unite Group, we like to remove the jargon and make understanding technology simple. So, to learn a little more about the services that could help you, keep an eye out for our free e-books which will be sent to your emails!

For any general queries contact us on 0191 466 1050 or email [info@theunitegroup.co.uk](mailto:info@theunitegroup.co.uk)

## PHOTO DAY

In September, we had the pleasure of welcoming Gavin Forster into the office for the day to take some professional photos of the team. We wanted to get some updated images, as our team has grown rapidly since before the pandemic. We have new headshots, and images of the team working together in the office. There may be a few cheesy grins and angles that the team would prefer not to be shared on social media - but it was a great day all in all and we couldn't recommend Gavin enough for your corporate photos! For more information on Gavin's services visit [www.gforsterphoto.co.uk](http://www.gforsterphoto.co.uk).

## AMB PACKAGING UK

The Unite Group have supported AMB packaging UK for many years providing a full suite of IT services covering all aspects of network and IT infrastructure. As the company has grown we have deployed a scalable fully virtualised environment to support all key line of business applications which is backed with a full business continuity and disaster recovery solution at all UK sites. The Unite Group have deployed numerous technologies to allow all of the companies buildings to be interlinked and to allow full use of the corporate ERP systems handheld scanners throughout the facility.

## CLIENT SPOTLIGHT: MEDSOLVE

The Unite Group has recently started working with the team at MedSolve and CareerSolve, to provide IT and Social Media Management.

Medsolve is full-service-led medical recruitment and care home solution provider known for its highest quality of services, competitive rates, and customer satisfaction. They're thriving today due to the dedication and efforts of their fantastic team of consultants. They offer clients the flexibility of choosing their own ours and offer full and part time hours, dayshift, nightshift, and weekend working, to fit around their client's family and lifestyle. Find out more about MedSolve at [www.medsolve.co.uk](http://www.medsolve.co.uk).

CareerSolve are committed to finding the perfect clients for your business. Their goal is simply to provide the best possible service to their clients and candidates, communicating with both every step of the way. They are transparent in their approach and always aim to exceed expectations. Find out more about CareerSolve at [www.careersolve.co.uk](http://www.careersolve.co.uk).

We are excited to be working with Lisa and her team at MedSolve and CareerSolve to ensure they can operate effectively and support their online digital marketing.

## 3 years at The Unite Group!

## Congratulations Danielle and Jack!

We would like to congratulate Danielle, our Web Design Manager and Jack, our Help Desk Engineer on working at The Unite Group for three years! Danielle works for Social+ designing and maintaining bespoke websites for our clients. You might have spoken to Jack on the phone who is great at helping clients with any issues or queries that they may have. They are both brilliant assets to the team and we are very lucky to work with them. Congratulations to you both!

## MOBILE SERVICES FROM THE UNITE GROUP

The Unite Group can offer a range of business mobile options from all major networks including Vodafone, EE and O2.

Unite have two specific options on offer the first being our distribution router where we partner with the best network for your needs, you sign the agreement directly with them and The Unite Group directly manage your ongoing account. This means you get the same level of service as you would expect from us but ensures we can deliver the best deals available. The second option is our range of wholesale products, these are signed directly with The Unite Group meaning we are the direct provider and your mobile services would appear on your monthly service invoice. This can be a great option if you need multiple devices or connections as it offers greater flexibility in allowing us to tailor a solution for your specific needs.

What is MDM? MDM (mobile device management) is a tool that helps manage remote mobile devices that access sensitive data to ensure you are always protected if these devices are lost or stolen.

Your mobile device now has more capabilities than ever before, which has ultimately led to many businesses adopting a mobile-only or mobile-first workforce. In these types of environments, both personal and corporate-owned mobile devices are the primary devices used for accessing or interacting with corporate data. To simplify the management of mobile devices, many businesses have looked to implement mobile device management (MDM) software such as Mobile Device Manager Plus to manage mobile devices.

The software allows you to remote lock or wipe a stolen device, all devices can also be tracked so you know exactly where they are at all times.

The Unite Group can provide your MDM solution so if this is something that would be of interest please get in touch on 0191 466 1050 and we can arrange a full demonstration of the software for you.
